

CLOVIS KYNDT

SOFTWARE ENGINEER

I am a young French software engineer that loves programming and mathematics.
I spend a lot of time improving myself by working on side projects, reading some blogs, website, and books.
I like traveling and I would like to visit South Korea, Japan and the South of China.

Computer Knowledges

Languages	Framework	Databases	Distributed	Others
Golang	Ruby on Rails	MongoDB	ELK stack	Mathematics
JavaScript	AngularJS	MySQL	Kafka	Algorithms
Python	Node.js	Redis	RabbitMQ	Design patterns
C/C++		PostgreSQL	Docker	TDD & Agile dev.

Education

Beijing Jiaotong University

- 2014 – 2015, Beijing, Beijing Municipality, China
- Project Management
 - Quality and Process Software Management
 - BigData (Hadoop)
 - Software training (Node.js & AngularJS)
 - Chinese writing and oral

Epitech - European Institute of Technology

- 2011 – 2016, Paris, France
- Group Management
 - Software Training
 - Mathematics

Language

English

Lived 6 months in Edinburgh
Intermediate

Chinese

Live 1 year in Beijing
Basic

French

Native Language

Work Experience

Backend developer ruby on rails – Libertrip

- Internship April 2014 - august 2014 in Euratechnologie, Lille, France
- Feature in the main app in Rails / Backbone.
 - Incorporate several API from “channel manager”
 - Built a web client to read and handle date

Ruby on Rails - AngularJS - PostgreSQL - MongoDB

Web Developer – Freelance

July 2012 - December 2012 in Edinburgh, Scotland, United Kingdom

Ruby on Rails - JQuery - MySQL

Projects

Noihara: Web tool to manage project

(microservice, Docker, Golang, ELK stack, Apache Kafka, VPS, MongoDB, and AngularJS)

Citywarfare: Mobile game with reality augmented

(Ruby on Rails, RESTfull, MySQL, server architecture)

Hexatyla: Computer game RTS

(C++, Mathematics, JavaScript, Algorithms, Ogre3d, leader)
